

## Training and Certification

Wrapped Apps™ Corporation offers training to help Channel Partners develop the skill sets and expertise they need to manage, administer, position, and sell applications and Content On-Demand for their clients. We can also train and certify partners to wrap applications for deployment onto our AppsOnDemand™ Server.

### Partner Benefits

- Offer turn-key on-demand solutions and/or services to your clients
- Build the knowledge and expertise you need to take full advantage of our patent-pending SDP features and wrapping process

### User and Administrator Training

Wrapped Apps™ experienced trainers will equip you with the skills and knowledge to setup and administer your applications and content on our Service Delivery Platform (SDP) to fit your target market.

### Integration/Wrapping Training & Certification

Wrapped Apps™ engineering professionals can train and certify members of your team or your partners in the methodologies to properly assess and wrap applications on your own.
