### **Wrapped Apps™ Corporation Partners with Scio Consulting to Help ISVs SaaS-enable New and Existing Applications.**

*April 23, 2007, Ottawa, ON, Canada* – Wrapped Apps™ Corporation, a leading technology enabler for the deployment of applications and content on-demand, announced today that it has forged a working relationship with Scio Consulting, a specialist in Software Development for the On-Demand world.

SCIO will work with Wrapped Apps™ to offer SaaS-enabling technology to clients for both Web and 32-bit applications; leveraging the Wrapped Apps™ Service Delivery Platform (SDP) to enable application providers to focus on their core offerings and get to market quicker with reduced cost .

“There are positive synergies between our companies,” stated Jeff Bennett, Vice-President of Business Development for Wrapped Apps™ Corporation. Both work with ISVs, and both have committed to SaaS as the new method of software distribution. Together we can accommodate virtually any ISV; whether SaaS-enabling existing applications, or bringing new SaaS products to market.”

### **About Wrapped Apps™ Corporation**

Headquartered in Silicon Valley North (Ottawa, Canada), Wrapped App™s Corporation is a leading technology enabler for the online deployment and use of applications and content on-demand. The Wrapped Apps™ Service Delivery Platform (SDP) – which includes the AppsOnDemand™ Server, Management Console, and Integration SDK – provides automated support for all tasks associated with online provisioning; including metering and monitoring, reporting and billing, and licensing and compliance. Our SDP and Virtual Multi-Tenancy (VMT)™ technology significantly reduces the time, development cost, and architectural barriers to on-demand delivery; enabling application and content providers to focus on their core offerings, get to market quicker with reduced costs, and monetize their assets. Most Web, Windows, Linux-based, single-user or multi-tenant applications and content can be wrapped for on-demand delivery within 30 days. For more information, please visit:
